I agree to follow all library rules and regulations. I understand that I am responsible for all library materials checked out to this library card. The Wayne Public Library will keep library records confidential, as provided by state law, and I understand that no one except the applicant will have access to information about the use of library materials with this card.

Signature: _____ Date _____
*(If minor, Signature of Parent/Guardian)

Select your Internet Access Level

You must select an Internet access level for this card. All computers in the Wayne Public Library will require a card before you may access the Internet. The computers will only allow access at the level selected. We encourage parents to select the level they feel is appropriate for their individual child. Although the use of filtering will provide some protection for children as he or she uses the Internet, no technological solution is infallible and the best protection is for you to be with your child as he or she uses the Internet. The level of access may be changed if, in the future, you find that your selected level does not meet your continuing needs.

___ **Level 1**

Open access. No restriction on access.

___ **Level 2**

Blocks Banner Ads and anonymous web surfing (*see note below*).

___ **Level 3**

Blocks Banner Ads, sex sites, obscene sites and anonymous web surfing (*see note below*.)

___ **Level 4**

Blocks Banner Ads, sex sites, obscene sites, chat rooms, criminal skills and anonymous web surfing (*see note below*).

___ **Level 5**

Blocks Banner Ads, sex sites, obscene sites, chat rooms, criminal skills, anarchy, cults/gothic, drugs, gambling, hate/discrimination, and anonymous web surfing (*see note below*).

Level 6

Blocks Banner Ads, sex sites, obscene sites, chat rooms, criminal skills, anarchy, cults/gothic, drugs, gambling, hate/discrimination, games, personals/dating sites, Web-based e-mail and anonymous web surfing (*see note below*).

No Access

For those who do not wish to access the Internet from the Library.

NOTE – Proxies & Anonymizers are sites that offer themselves as gateways to circumvent filtering software and to make anyone’s surfing experience anonymous.

Select a four digit pin number. This number should not be shared with others. _____
