

## Up From Slavery:an Autobiography

By Booker T. Washington

Washington's memoir begins with his life as a slave on a plantation in western Virginia. Once he's freed, he looks for ways to gain knowledge, while also working in a coal mine and eventually as a house boy for a noted member of the white community. Later, he attends Hampton Institute where for the first time he is exposed to higher education and begins to develop his philosophy. The author then goes to Tuskegee Institute where he is first a teacher and later its president. Up from Slavery includes much of Washington's thinking on economic empowerment and the importance of education. Also included here is an 1895 speech he made at the International Exposition in Atlanta that turned him into a national figure and a role model. Washington's words continue to inspire many but also ruffle the feathers of those who follow the work of scholar W.E.B. Du Bois, who had a different view regarding the role of African Americans in society.

## The Way Forward Is With a Broken Heart

By Alice Walker

In this book, Alice Walker gives us superb stories based on rich truths from her own experience. Imbued with Walker's wise philosophy and understanding of people, the spirit, sex and love, *The Way Forward Is with a Broken Heart* begins with a lyrical, autobiographical story of a marriage set in the violent and volatile Deep South during the early years of the civil rights movement. Walker goes on to imagine stories that grew out of the life following that marriage—a life, she writes, that was "marked by deep sea-changes and transitions." These provocative stories showcase Walker's hard-won knowledge of love of many kinds and of the relationships that shape our lives, as well as her infectious sense of humor and joy. Filled with wonder at the power of the life force and of the capacity of human beings to move through love and loss and healing to love again, this title is an enriching, passionate book by "a lavishly gifted writer"

## Alex Haley's Queen: the Story of an American Family

By Alex Haley

Now, from the author of *Roots*, comes *Alex Haley's Queen* - the saga of his father's family. Lovers of sweeping generational epics will find much to rejoice in here. Once again, this is a personal saga, but one played out against the broad canvas of American history. The story begins in Ireland, where Haley's white great-great-grandfather, James Jackson, Sr., is born. From there we travel with Jackson to Nashville, where he meets Andrew Jackson, the future president of the United States. The two men become business partners, and James Jackson makes his fortune. He establishes his grand plantation, The Forks of Cypress, in Alabama, while Andrew ascends to the White House, and the rumblings that will explode into the Civil War gather force. James's son Jass Jackson inherits the plantation just as the genteel, well-ordered antebellum world begins to crumble. His adolescent attraction to the beautiful and strong-willed slave named Easter blossoms into a powerful and lasting love, and from their passionate union comes Queen - the heroine of the tale, Alex Haley's grandmother. This is history at its most compelling - from the Irish sod to the settlement of the South; from the Trail of Tears to the battlefield at Manassas; from the agonies of slavery to the tribulations of freedom - all rendered with the eye for telling detail and the sense of historical significance that readers have come to expect of Haley. In this, his final book, Alex Haley has created a truly multicultural family saga, the capstone to one of the great, classic American stories.

## I Know Why the Caged Bird Sings

By Maya Angelou

Famed poet and author Angelou casts a keen eye inward and bares her soul in a slim volume of personal essays. This collection is narrower in scope than Angelou's earlier book and the sense of racial pride is stronger, more compelling. But all of her opinions are deeply rooted and most are conveyed with a combination of humility, personable intelligence and wit. Like a modern-day Kahlil Gibran, Angelou offers insights on a wide range of topics-Africa, aging, self-reflection, independence and the importance of understanding both the historical truth of the African American experience and the art that truth inspired. Women are a recurrent topic, and in "A Song to Sensuality," she writes of the misconceptions the young (her younger self included) have of aging. "They Came to Stay" is a particularly inspirational piece paying homage to black women: "Precious jewels all." Even Oprah Winfrey (to whom the previous collection was dedicated) serves as subject matter and is likened to "the desperate traveler who teaches us the most profound lesson and affords us the most exquisite thrills." In her final essay, Angelou uses the story of the prodigal son to remind readers of the value of solitude: "In the silence we listen to ourselves. Then we ask questions of ourselves. We describe ourselves to ourselves, and in the quietude we may even hear the voice of God."

## The Bluest Eye

By Toni Morrison

Pecola Breedlove, a young black girl, prays every day for beauty. Mocked by other children for the dark skin, curly hair, and brown eyes that set her apart, she yearns for normalcy, for the blond hair and blue eyes that she believes will allow her to finally fit in. Yet as her dream grows more fervent, her life slowly starts to disintegrate in the face of adversity and strife. A powerful examination of our obsession with beauty and conformity, Toni Morrison's virtuosic first novel asks powerful questions about race, class, and gender with the subtlety and grace that have always characterized her writing.

## The Invisible Man

By Ralph Ellison

Ralph Ellison's *Invisible Man* is a monumental novel, one that can well be called an epic of modern American Negro life. It is a strange story, in which many extraordinary things happen, some of them shocking and brutal, some of them pitiful and touching--yet always with elements of comedy and irony and burlesque that appear in unexpected places. It is a book that has a great deal to say and which is destined to have a great deal said about it. After a brief prologue, the story begins with a terrifying experience of the hero's high school days, moves quickly to the campus of a Southern Negro college and then to New York's Harlem, where most of the action takes place. The many people that the hero meets in the course of his wanderings are remarkably various, complex and significant. With them he becomes involved in an amazing series of adventures, in which he is sometimes befriended but more often deceived and betrayed--as much by himself and his own illusions as by the duplicity of the blindness of others.

## The Collected Poems of Langston Hughes

By Langston Hughes

This is the most complete collection of Hughes's poems to date. Known for a few brilliant pieces, Hughes wrote many others--860 are here, and this after unpublished work and juvenalia were excluded. Quite a few are songs or what the editors appropriately term "doggerel." Works are in chronological order, except for two important books printed intact: *Montage of a Dream Deferred* and *Ask you Mama: 12 Moods for Jazz*. A short preface, a time line of Hughes' life, and historical endnotes are also included. The time line is as moving as any of Hughes's poems; together, they document an intensely felt life of hardship and perseverance. Persecuted for his leftist politics as well as his skin color, Hughes just kept on writing. Beyond their relative merits--their rhymes, song rhythms, and sometimes dogmatic approach will not appeal to all--these poems are full of beauty, qualified joy, and sharp illustrations of African American life in our century.

## Little Scarlet

(Easy Rawlins Series #8)

By Walter Mosley

At the height of the riots that cripple LA in the summer of 1965, a white man is pulled from his car by a mob and escapes into a nearby apartment building. Soon afterward, a red-headed woman known as Little Scarlet is found dead in that apartment building--and the fleeing man is the obvious suspect. The police ask Easy Rawlins to investigate. What he finds is a killer whose rage, like that which burned the city for weeks, is intrinsically woven around race and passion. Rawlins's hunt for the killer will reveal a new city emerging from the ashes--and a new life for Easy and his friends. Mosley's lean and muscular vernacular captures the heat and the rhythm of Los Angeles' heart, where danger is the common currency of everyday life.

## Their Eyes Were Watching God

By Zora Neale Hurston

This novel about a proud, independent black woman was first published in 1937 and generally dismissed by reviewers. It was out of print for nearly 30 years when the University of Illinois Press reissued it in 1978, at which time it was instantly embraced by the literary establishment as one of the greatest works in the canon of African-American fiction.

Mesmerizing in its immediacy and haunting in its subtlety, *Their Eyes Were Watching God* tells the story of Janie Crawford--fair-skinned, long-haired, dreamy woman--who comes of age expecting better treatment than what she gets from her three husbands and community. Then she meets Tea Cake, a younger man who captivates Janie's heart and spirit, and offers her the chance to relish life without being one man's mule or another man's adornment.
