

African American Holiday Traditions

By Antoinette Broussard

African-American families have always had rich traditions of food, song, spirituality, and decorating for the Christmas holiday, and those unique styles have influenced other cultures. In this book, Broussard brings together her personal style for presenting food, decorating tips, and entertaining panache with the personal recollections of famous African-American women. She interviewed over fifty women about their family traditions, holiday memories, and favorite recipes. This book links the past to the present, with special consideration given to Afrocentric cultural influences.

Dancing in the Streets: A History of Collective Joy

By Barbara Ehrenreich

It is a truism that everyone seeks happiness, but public manifestations of it have not always been free of recrimination. Colonial regimes have defined spectacles as an inherently "primitive" act and elders harrumph at youthful exultation. Social critic and bestselling author Ehrenreich (Nickel and Dimed) teases out the many incarnations of sanctioned public revelry, starting with the profeminist oreibasia, or Dionysian winter dance, in antiquity, and from there covering trance, ancient mystery cults and carnival, right up to the rock and roll and sports-related mass celebrations of our own day. "Why is so little left" of such rituals, she asks, bemoaning the "loss of ecstatic pleasure." Ehrenreich necessarily delineates the repressive reactions to such ecstasy by the forces of so-called "civilization," reasonably positing that rituals of joy are nearly as innate as the quest for food and shelter. Ehrenreich writes with grace and clarity in a fascinating, wide-ranging and generous account.

A Simple Plan
By Scott Smith

Hank Mitchell, an accountant living in a dumpy little Ohio town, is thinking about his parents' death in a car crash and remembers his wife saying it was no accident. It's New Year's Eve and Hank is waiting for his chronically unemployed and extremely obese and shy brother, Jacob, to pick him up so they can make their annual visit to the cemetery. He's not happy to see Jacob's boozy friend, Lou, in the truck and is even more irritated when Jacob's dog gets loose and tears off after a fox. Hank reluctantly joins Jacob and Lou as they trudge off across a snowy field in pursuit. The dog is forgotten when they stumble upon a small plane that has crashed in a stand of trees. Bullied into looking inside, Hank discovers a dead pilot and a bag full of money. A lot of money. Now the fun begins, and the reasons for the excitement over this fictional debut become clear: Smith's narrative skill is awesome. His even tone and suspenseful attention to physical detail and emotional nuance never waver as he traces the shifting of power among the protagonists and the pulse of greed, tug of fear, erosion of morality, and capacity for murder that is set off within each soul by the coveting of this malevolent treasure. Trust and integrity are abandoned for cunning and self-preservation, and killing suddenly seems like a reasonable act. A shattering drama of our unpredictability and inherent knack for violence.

Beaumont is babysitting his best friend's daughters in his penthouse apartment on a sober New Year's Day when he is called to investigate a body floating in nearby Elliot Bay. The more Beau discovers about the corpse, the more he's convinced that justice has already been served. Amid an exasperating, eccentric cast of characters and battling with a partner who resents Beau's inherited wealth, the recovering alcoholic detective discovers that sometimes twelve-step programs don't have all the answers. With his personal life converging into his professional one, Beau struggles to find a killer he doesn't really want to find.
